PROJECTS

Podcast Platform ⧉ | React, Firebase, and Redux Toolkit **July 2023**
- Podcasting has become a powerful medium for sharing stories, ideas, and knowledge.
- To make podcast creation and discovery more accessible, this platform enables users to create, upload, and share their podcasts while exploring new content from others in a user-friendly environment.
- Users can also browse and search for podcasts created by other users.

Personal Finance Tracker ⧉ | React, Firebase **July 2023**
- Building a streamlined personal finance tracking application empowering users to manage their finances effectively.
- Creating a user-friendly interface with authentication and database integration to track transactions, visualize financial statistics, and enable easy import and export of CSV files for versatile usage.
- Developing a robust platform that equips users with key steps and best practices to maintain control over their personal finances.

INTERNSHIP

Public Works Department **May 2019 – June 2019**
Trainee Engineer *Nagpur, India*
- Responsible for conducting daily inspections and supervising the site.
- My responsibility involves verifying that design parameters align with the map.
